

QUALITY POLICY

We are an Electrical Company who have successfully carried out testing and commissioning projects throughout the Western Australian Metro and Pilbara Regions that exceed national standards, ensuring the highest quality workmanship to surpass client expectations.

Our objective is to ensure we continually and consistently deliver quality outcomes for our clients on all projects and works we execute.

We are committed to building and maintaining a reputation for delivering quality in the projects we execute and products and services we deliver.

To achieve our commitment we will:

COMMUNICATE Communicate our Quality Policy with everyone who works with us so they are aware of their obligations and our systems and procedures.

PROVIDE Provide and maintain a quality management system based on the requirements of AS/NZS ISO9001.

THE FIRST TIME "Do it right the first time". Deliver products and services right the first time that comply with the specifications, standards, agreements and contractual requirements.

EMPOWER Empower our people to innovate and implement quality work methods that enhance our capabilities to deliver quality products and services.

CONTROL Develop and set targets, measures, and programs to ensure we deliver and achieve our quality objectives.

IMPROVE Seek to continually improve our quality systems by identifying opportunities for improvement and implementing outcomes into our way of business.

We believe quality is vital to the successful operation of our business. Each person is responsible for the quality of their work and we are collectively responsible for implementing and complying with this policy and the requirements and duties set out in our quality management system.
